PIANETA *Origine* Collection

Benvenuto in Elli&Rini, atelier di idee che, in costante apertura e dialogo con professionisti e visionari votati alla ricerca del bello e del nuovo, dà vita a soluzioni innovative in cui design e tecnologia si incontrano per essere al servizio delle persone e del mondo.

—

Welcome to Elli&Rini, an “atelier” (design studio) of ideas that, in constant openness and dialogue with professionals and visionaries committed to searching out beauty and novel creations, giving life to innovative solutions where design and technology come together to serve people and the world.

Vision

Una vita sostenibile fondata su una nuova armonia tra fisico e digitale.

A sustainable way of life based on a new harmony between physical and digital.

Mission

Essere un atelier creativo di soluzioni di design fisico e digitale, ispirato alla tecnologia e alla bellezza.

A creative atelier of physical and digital design solutions, inspired by technology and beauty.

Elli&Rini: the coming together of two stories

La storia della famiglia Foiadelli, generazioni di ingegneri, imprenditori e industriali: l'ingegno, la passione ed il pragmatismo di persone abituate a trasformare idee in soluzioni tecnologiche.

La storia della famiglia Vaccarini, una storia della tradizione artistica ed intellettuale italiana che ha attraversato il '900 per giungere nel 21-esimo secolo, reinterpretando la visione estetica ed etica delle arti figurative e musicali attraverso la chiave di lettura della tecnologia.

Nel 1999 queste due storie si sono incontrate e dalla loro successiva unione, nella vita e nel lavoro, è nata e trae ispirazione Elli&Rini.

—

The Foiadelli family history includes generations of engineers, entrepreneurs and industrialists: we use our ingenuity, passion and pragmatism to transform ideas into technological solutions.

The Vaccarini family history includes Italian artistic and intellectual tradition that has crossed the 1900s to reach the 21st century, reinterpreting aesthetic and ethical visions of the figurative and musical arts through the interpretation of technology.

In 1999 these two stories came together in a union of life and work; Elli&Rini was born and emulates inspiration.

Our materials

Fondiamo l'arte, la cultura, la tecnologia, la tradizione italiana e lo studio dei materiali, plasmandoli con elementi naturali primitivi come il legno, la pietra e il muschio, dando vita a oggetti di design unici.

L'esperienza nella lavorazione delle materie prime e la fusione tra di loro trasforma i nostri prodotti in una continua scoperta sensoriale.

—

We blend art, culture, technology, Italian tradition and the study of materials, shaping them with primitive natural elements such as wood, stone and moss, giving life to uniquely designed objects.

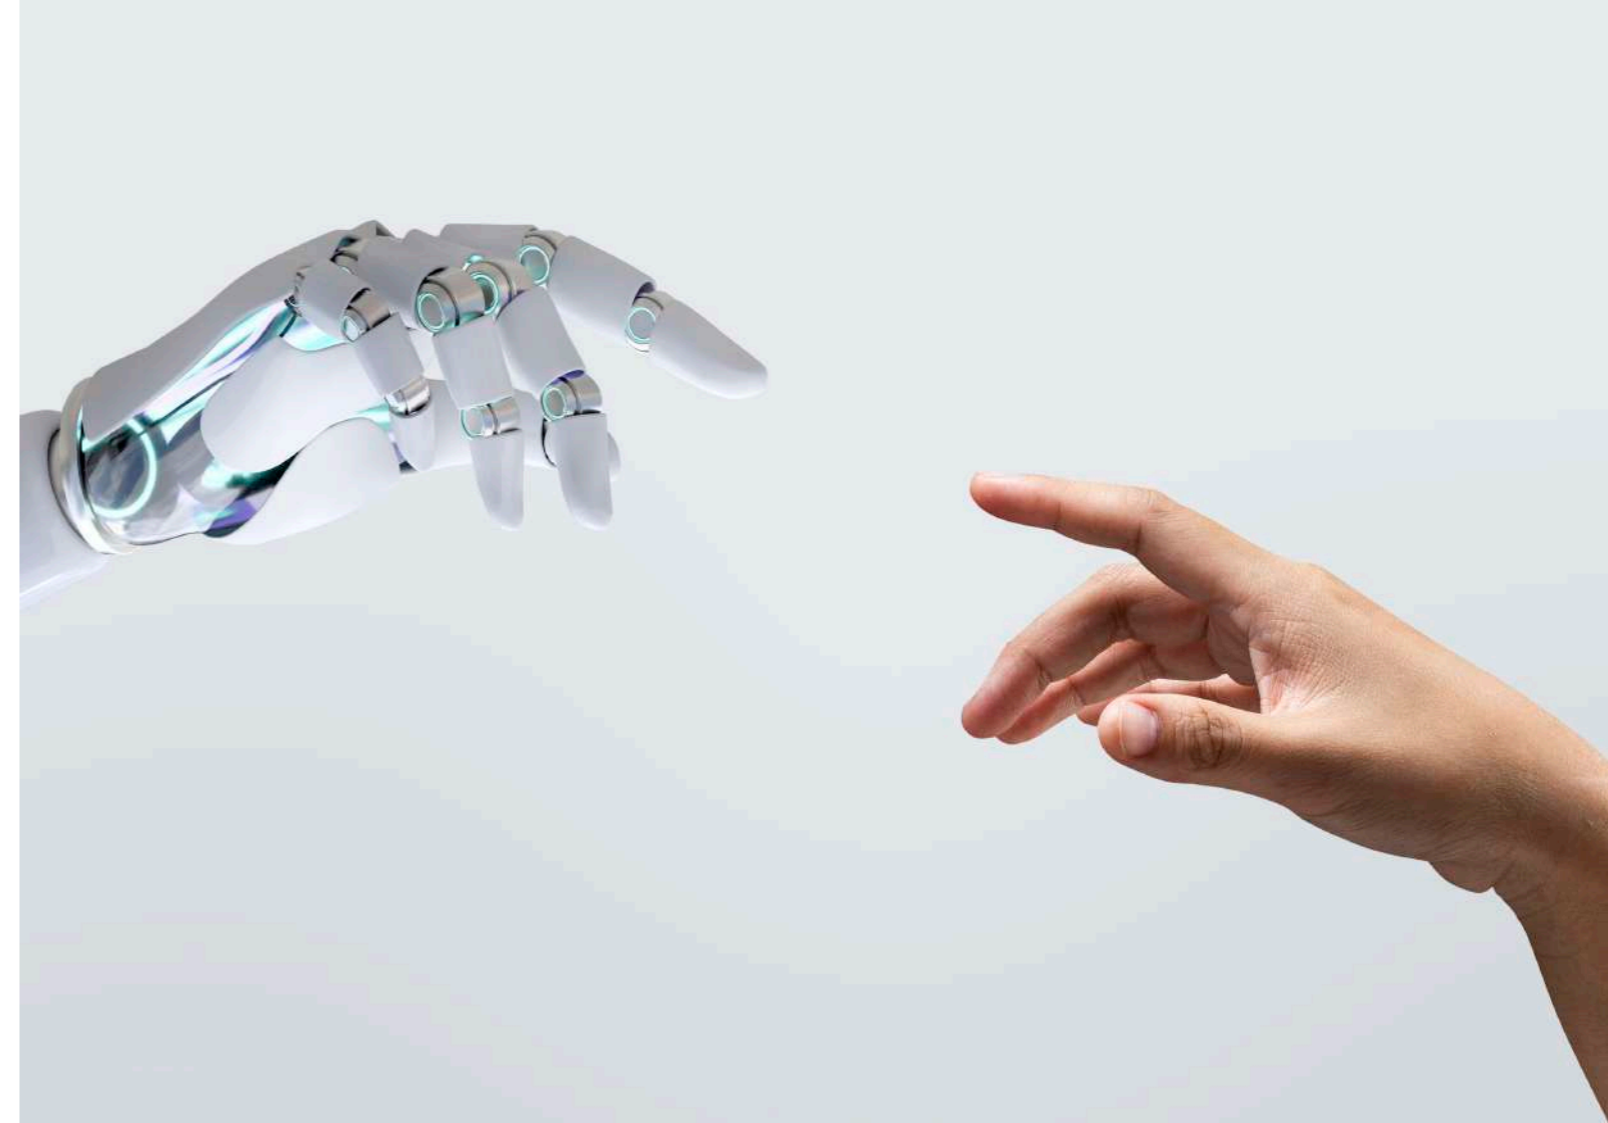

The experience in the processing of raw materials and the fusion between them, transforms our products into continual sensory discovery.

Milano, Italian icon

Design, musica, moda e tecnologia, unite alla ricerca di soluzioni per la vita quotidiana: questo è il laboratorio in cui siamo nati e da cui traiamo energia ed ispirazione ogni giorno. Milano, la nostra casa. L'eccellenza Made in Italy, il nostro essere.

—

Design, music, fashion and technology, combined with the search for solutions for everyday life: this is the laboratory where we were born and from which we draw energy and inspiration every day. Milan, our home. The exceptional quality of "Made in Italy" our essence.

Innovation & technology

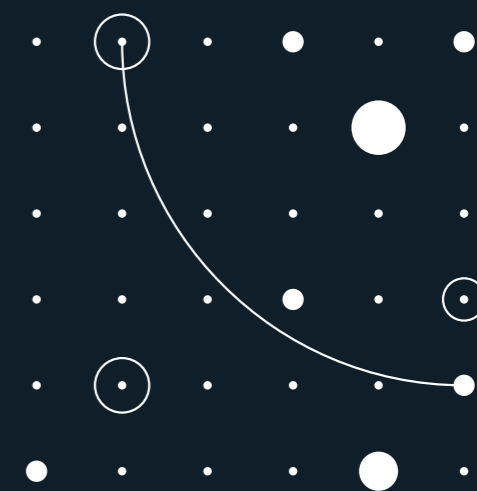

In ogni processo che coinvolge l'innovazione, la centralità dell'uomo e le sue aspirazioni rimangono la stella polare del cambiamento. Abbiamo creato un nuovo concept dove il design e la tecnologia si incontrano per essere al servizio delle persone e del mondo.

—

In any process involving innovation, the centrality of man and his aspirations remain the guiding star of change. We have created a new concept where design and technology join together to service people and the world.

PIANETA

PIANETA è “spazio equipaggiato”, architettura innervata di tecnologia, è risposta alle esigenze emerse con l’espansione qualitativa e quantitativa della tecnologia nelle vite di ognuno. Un sistema orbitale “persona-centrico” in cui la tecnologia e gli elementi materici tipici dell’arredo (legno, pietre, tessuti) ruotano attorno alla persona offrendo funzionalità ed emozioni. E come ogni sistema orbitale, PIANETA risponde ad una prospettiva estetica e funzionale interna ed esterna: PIANETA è al servizio della persona che lo abita e contemporaneamente di chi lo vive dall’esterno, offrendo a quest’ultimi forme e luce.

PIANETA is “equipped space”, architecture innervated with technology, it is a response to the needs that have emerged with the qualitative and quantitative expansion of technology in everyone’s lives. A “person-centred” orbital system in which technology and the typical material elements of furniture (wood, stone, fabrics) revolve around the person, offering functionality and emotions. And like every orbital system, PIANETA responds to an internal and external aesthetic and functional perspective: PIANETA is at the service of the person who inhabits it and at the same time of those who experience it from the outside, offering the latter form and light.

Design and sustainability

PIANETA è realizzato con materiali naturali, ecosostenibili. È una struttura in base lignea con finiture variabili tra legni, metalli, materiali lapidei e verde stabilizzato. La sua lavorazione artigianale, il suo concept e la sua realizzazione sono all'insegna dell'eccellenza Made in Italy.

PIANETA is made with natural, eco-sustainable materials. It is a wooden-based structure with variable finishes including woods, metals, stone materials and green faux foliage. Its craftsmanship, concept and realisation are in the name of "Made in Italy" exceptional quality.

Tech-in Nature

PIANETA è fusione, armonia tra natura e ingegno umano. La tecnologia innestata nella natura diventa quindi l'elemento di connessione, lo stargate per un viaggio sensoriale. Una sorprendente esperienza rigenerante capace di esaltare e trasformare momenti quotidiani in emozioni uniche.

PIANETA is a fusion, harmonious between nature and human ingenuity. Technology grafted onto nature thus becomes the connecting element, the stargate for a sensory journey. A surprisingly regenerating experience capable of enhancing and transforming everyday moments into unique emotions.

PIANETA è al servizio della persona che lo abita e contemporaneamente di chi lo vive dall'esterno, offrendo a quest'ultimi forme e luce. Dai bisogni primari del digital-living, come ricaricare il proprio smartphone e laptop, ai bisogni relazionali connessi ad esso, quali la privacy per sé e per la controparte durante una videochiamata o l'elaborazione di contenuto riservato. E queste esigenze ci accompagnano ovunque: a casa, come in hotel e persino ristoranti e boutique. Il contenuto digitale infatti è ormai dominante anche nel mercato di beni e servizi, lusso compreso. E qui entra in gioco PIANETA come privé esperienziale intimo ed accogliente, elegante e personalizzabile nei suoi elementi per rendere il rapporto tra il brand ed il cliente sempre più personale ed indimenticabile.

PIANETA is at the service of the person who inhabits it and at the same time of those who experience it from the outside, offering the latter form and light. From the primary needs of digital-living, such as recharging one's smartphone and laptop, to the relational needs associated with it, such as privacy for oneself and one's counterpart during a video call or the processing of confidential content. And these needs accompany us everywhere: at home, as well as in hotels and even restaurants and boutiques. In fact, digital content is now also dominant in the market for goods and services, including luxury. And this is where PIANETA comes into play as an intimate and cosy experiential privé, elegant and customisable in its elements to make the relationship between brand and customer ever more personal and unforgettable.
